

STATISTICAL BOOK 2024

FRANCE
March 2025

Agriculture - Forestry - Fisheries
Food - Food industry
Environment - Territory

Foreword

The « Memento » collection is published by the Department of Statistics and Foresight Analysis (SSP) of the Ministry of Agriculture and Food Sovereignty. Each year, it provides a detailed overview of agricultural and food statistics.

Based on data from the book « **Graph'Agri 2024** » (published in November 2024), the collection brings together the latest and most significant information on agricultural and food diversity. This is an essential tool to enable everyone to better understand these statistics. It draws a synthetic overview of specificities in areas as varied as land cover, labour force, agricultural holdings and their production, food industry, forestry, women in agriculture, organic farming, and economic data.

This edition provides the most recent statistical overview of French agrifood, with a regional and/or departemental perspective.

Vincent Marcus
Head of the Department of Statistics and Foresight Analysis

The essentials about French agriculture

Key figures (last available data at 1 January, 2025)

Overview			
 Utilised Agricultural Area 26.7 million ha (Metropole)* 134,708 ha (DOM)**	 Agricultural holdings 389.779 (Metropole)* 26,657 (DOM)**	 Permanent workers 758.300 (Metropole)* 55,100 (DOM)**	 Women farm managers and co-managers 26% (Metropole)* 31% (DOM)**
Agricultural Census (2020)			
Economic data			
Agriculture and agrifood Employees and self-employed in FTE 4.8% of national employment Value-added 3.6% of GDP		Agricultural production €97 billion (value) of which vegetable: €56.6 billion of which animal: €33.2 billion	Agricultural results EBE ¹ per non-salaried FTE: €66,450
National Accounts 2023		Agricultural Accounts 2023	FADN 2023
Food industry 43,800 companies 659,700 employees in FTE €373 billion revenues of which €80 billion from exports		Food consumption (per inhabitant/year) Oranges ² : 25 kg Apples ² : 23 kg Tomatoes ² : 27 kg Wine: 36 l Cereals: 110 kg Oils: 11 kg Potatoes ² : 48 kg Sugar ² : 28 kg Cheeses: 26 kg Milk: 50 kg Eggs: 14 kg Meat ³ : 87 kg	
Annual company statistics (Esane) 2021		Supply balances 2022-2023	
Organic farming and other official quality signs			
 Organically farmed areas 61,163 farmers (14.0% of farms' UAA)	 Organic areas 2.8 million ha (10.4% of UAA)	 Number PDO/PGI⁵ agrifood: 257 wine: 438	 Label Rouge: 439 products STG⁶: 3 specialities
Agence Bio 2023		European Commission 2022	
Forestry - Wood			
 Forestry 17.5 million ha (Metropole)* 7.9 million ha (DOM)**	 Wood harvested and sold 39.1 million cu.m.	 Sawn timber, wood staves and wood sleepers 7.9 million cu.m.	 Forestry holdings and sawmills 3,015 French companies
Teruti 2022	Annual Sectoral Surveys of Forestry Holdings and Sawmills 2023		

* Metropolitan France; ** French overseas departments. 1. Gross operating surplus; 2. Fresh or processed; 3. All meats in carcass equivalent: cattle, pigs, sheep and goats, poultry; 4. Protected Designation of Origin/Protected Geographical Indication; 5. Traditional specialities guaranteed. Scope: France unless otherwise indicated.

The essentials about French agriculture

France in Europe (Eurostat data)

On January 1, 2024 the population of the European Union of 27 Member States is 449 million.

France accounts for 15% of the EU's population and is the second most populous country behind Germany (19%).

Europe has 157.4 million hectares of utilised agricultural area, 18% of which is in France.

In 2023, French agricultural holdings produced €86.7 billion worth of agricultural products.

France is the first agricultural producer in Europe, accounting for 18% of production value in the EU-27.

French food production accounts for 15% of EU production in 2022.

France is Europe's (and the world's) leading wine-producing country in terms of value, and ranks 1st among wine-producing countries by volume, ahead of Italy. France is the world's leading grower of organic vines in terms of surface area, with recent conversion trends, particularly in the vineyards of Champagne and Bordeaux in 2021.

The French fleet represents 8% of the EU-27 fleet and 18% of its power; with 906,000 kW, it is the most 2nd powerful country in the EU, between Italy and Spain.

French fishing and aquaculture (shellfish, fish and seaweed farming) is the 2nd biggest activity in Europe.

With the Europe's 4th largest forest, France accounts for 11% of the EU's forests in 2020.

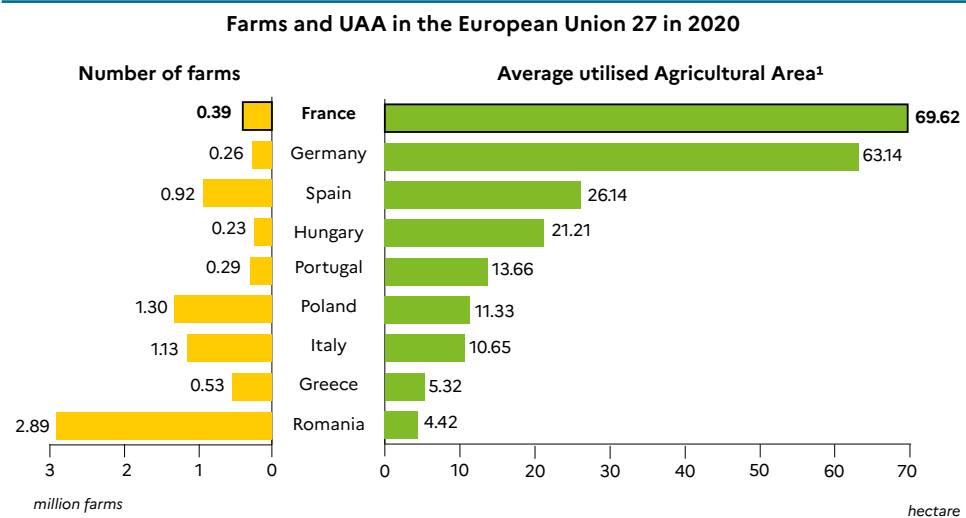

France's position in the EU-27 - Production volume

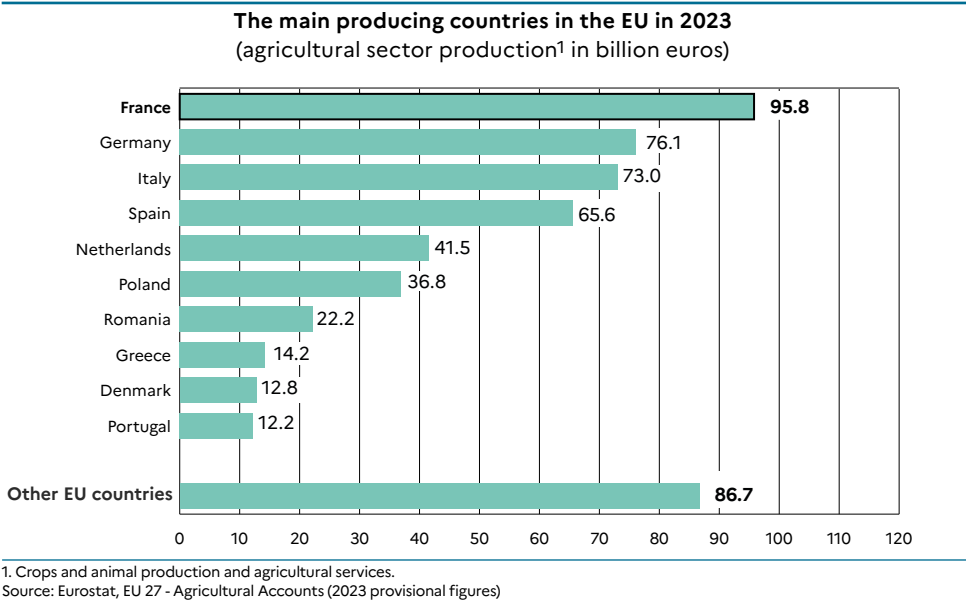

1st country						
 Cereals (Wheat, maize and barley)	 Bovine meat	 Sugar (Sugar beet and sugarcane)	 Flax	 Wine	 Organic production	 Hardwood harvest
1st country		2nd country		3rd country		
 Oysters	 Salmon	 Milk, butter and cheese	 Sturgeon caviar	 Fresh vegetables	 Mussels	 Poultry
4th country	5th country					
 Wood harvesting	 Table Fresh fruits	 Sawn timber				

The European context

Agricultural land: first place for France

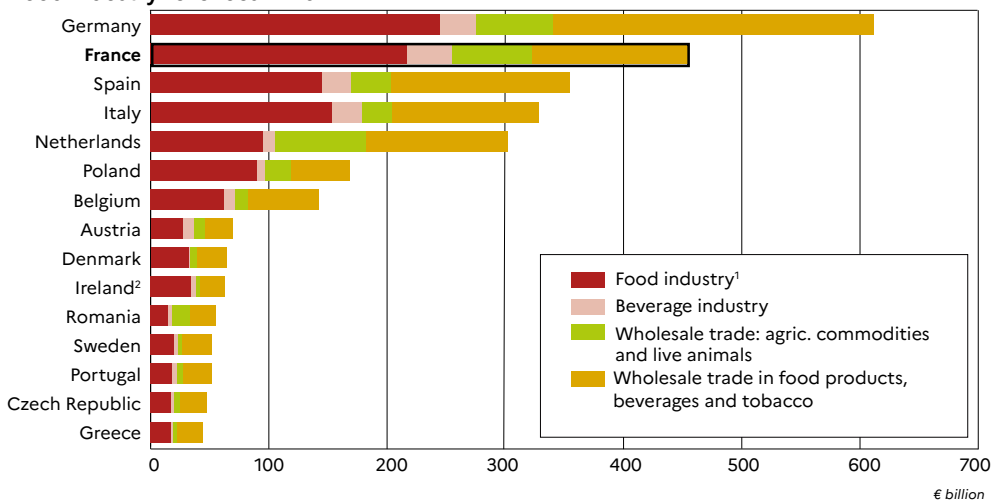

Agricultural production: first place for France

The European context

Food industry revenues: second place for France

Food industry revenues in 2022^P

Note: those 15 countries represented account for 94% of agri-food company revenues in the EU 27. For Ireland, agri-food industry revenues and drink industries is estimated.

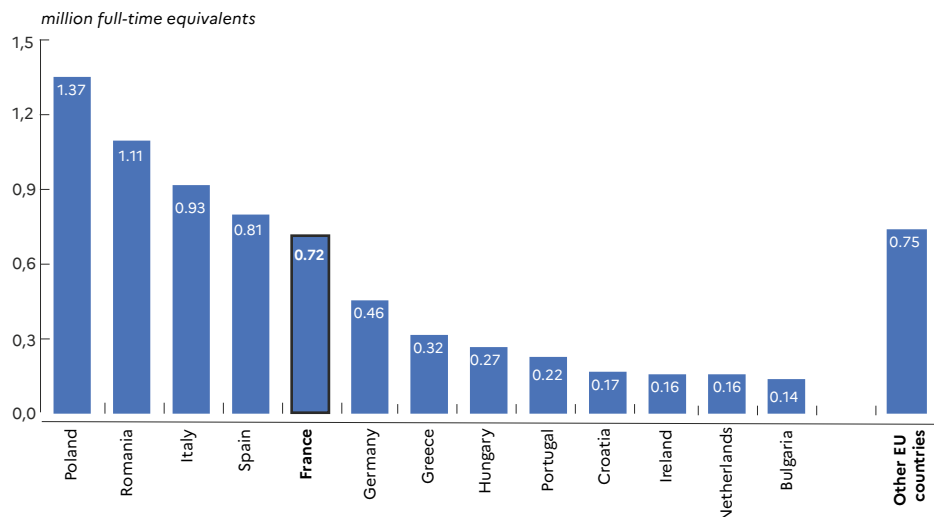

1. Including commercial craft.

2. Estimates for beverage manufacturing and wholesale trade.

La statistique, l'évaluation
et la prospective
du ministère de l'Agriculture,
et de la Souveraineté alimentaire

Agreste brings together all the data and analyses published
by the Ministerial Statistical Service for Agriculture and Food Sovereignty.

They are available on the website:

www.agreste.agriculture.gouv.fr

There were 389,800 farms in metropolitan France, about 100,000 fewer than in 2010 at the time of the last Census. In the overseas departments, there are 26,700 farms.

Half of all farms are run by at least one farmer aged 55 or over.

Non-family permanent employees provide the largest share of the annual number of worked hours in farms.

More than one farm in three is committed to a quality approach.

Nearly one farm in four sells through a short supply chains.

For more information:

French agricultural Census: www.agreste.agriculture.gouv.fr

Agricultural Census in the EU: www.ec.europa.eu/eurostat/fr/web/agriculture/Census-2020

Based on data from the book « **GRAPH'AGRI 2024** » (published in November 2024),
this Statistical Book provides a detailed overview of agricultural and food statistics.
